# BigBlueButton įrašų išsaugojimas lokalaus kompiuterio diske

BigBlueButton įrankis neturi funkcijos įrašams išsaugoti lokaliame kompiuteryje. Įrašams išsaugoti galima naudoti ekrano įrašymo programinę įrangą (Screen Recorder).

Debut Video Capture programą parsisiųskite iš https://www.nchsoftware.com/capture/index.html

Įdiekite ir paleiskite.

#### Spauskite mygtuką "Record" ir "Start Recording"

#### Spauskite mygtuką "No, use current mode"

Choose type of application you want to capture

Are you recording a video game or resource-demanding application?

If yes, it is recommended to switch Debut to the "Fast Capture" mode. In this mode, the Debut overhead
will be minimal while keeping same video quality.
You can always change the modes in "Record Screen as:" list.

Do not show this message again.
Yes, switch to "Fast Capture" mode
No, use current mode
