

RUNNING Adobe Connect for the FIRST TIME

Adobe Connect v9 prompts you that a connection is not secure when trying to connect with a browser for the first time. In this case you have to follow further steps. You only have to do this once, afterwards your browser will remember your choice.

ATTENTION: if you delete your browsing history, you'll have to repeat these steps every time you delete browsing history.

Internet Explorer

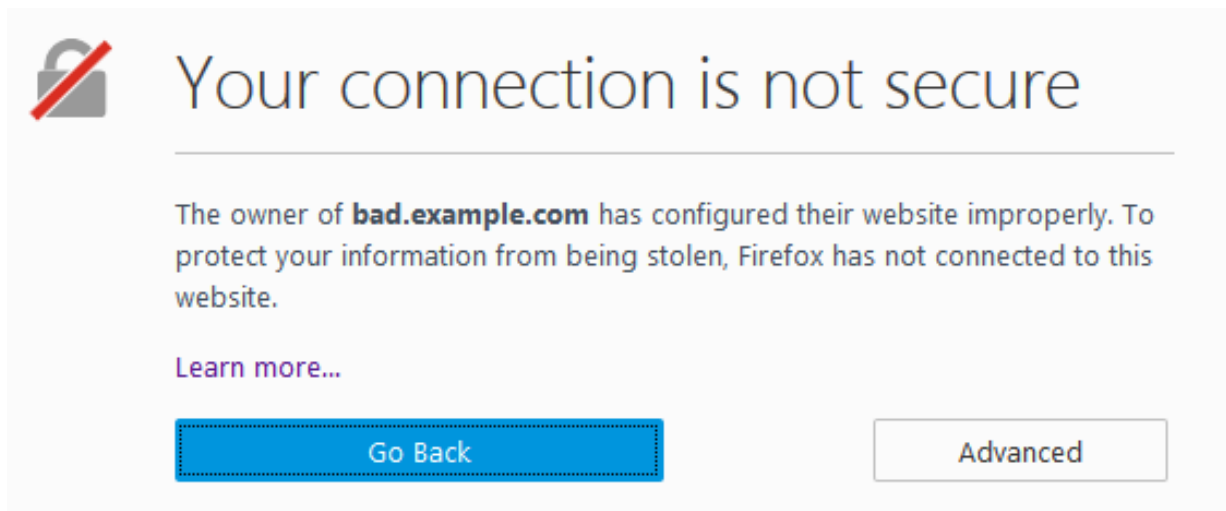

If you see a screen asking either you want to close it

Click Continue to the website (not recommended).

Mozilla Firefox

If you see this screen:

Click on these buttons:

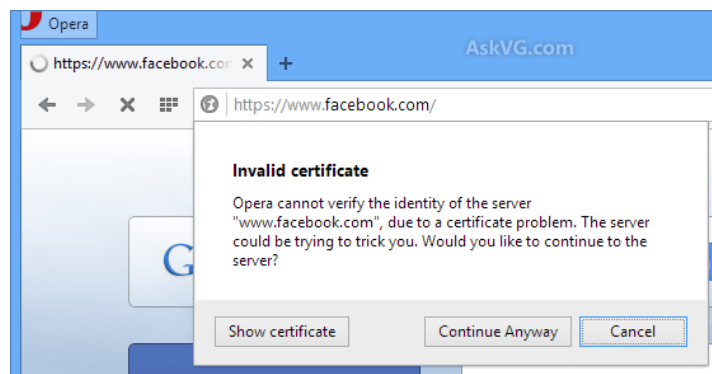

Advanced -> Add exception -> Confirm security exception

Google Chrome

No errors.

Opera

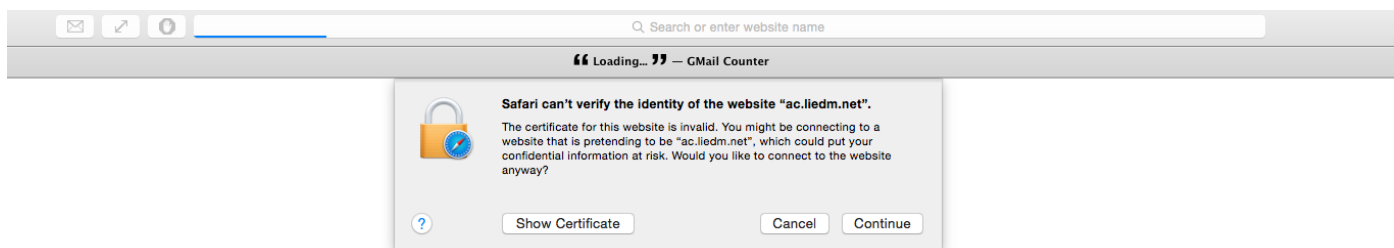

Upon this screen:

Click Continue anyway.

Safari

If you get this message:

Click Continue.
